Goran Loncar

Senior Full Stack Developer

Highly skilled Senior Full Stack Developer with over 8 years of experience creating innovative web applications. Proficient in both front-end and back-end technologies, with a strong ability to architect scalable and maintainable systems. Adept at collaborating with cross-functional teams, managing projects from conception to completion, and delivering high-quality solutions that meet client needs. Excellent problem-solving skills and a passion for staying up-to-date with the latest industry trends and technologies. Committed to driving continuous improvement and exceeding project goals.

Professional Experience

E-Commerce Assistant

EarthLink, Montana, Belgrade   *October 2018 - September 2022*

- Managed product listings on multiple e-commerce platforms, ensuring accurate and up-to-date information.

- Assisted in the creation and optimization of digital marketing campaigns to drive traffic and increase conversions.

- Analyzed sales data and market trends to identify opportunities for growth and improvement in the e-commerce business.

- Collaborated with the marketing and design teams to produce engaging content for product descriptions and promotional materials.

Smile Analysis Web Application

Acme Technical Services, Montana, Belgrade   *March 2015 - August 2018*

- Developed and maintained a user-friendly web application for smile analysis, allowing users to upload photos and receive instant feedback on their smile aesthetics

- Integrated advanced image recognition technology into the web application to accurately analyze dental features such as tooth alignment, spacing, shape, and symmetry

- Collaborated with dental professionals and experts in smile aesthetics to ensure the accuracy and relevancy of the smile analysis results provided by the web application

- Implemented data privacy and security measures to protect users' sensitive personal information and comply with HIPAA regulations

- Conducted usability testing and gathered feedback from users to continuously improve the functionality and user experience of the smile analysis web application

GitHub: https://github.com/codingexpert1995/

Key Skills

React Native, React.js

WordPress, Laravel, PHP

Shopify, eCommerce

Node.js, Express

MongoDB, MySQL, GraphQL

HTML, CSS, Javascript

UI/UX, OpenAI API, Google Analytics

Python, Java

Angluar, Vue.js

Git, Docker, Railway

Gallatin College, Montana State University,
Belgrade MT

- Bachelors of Science in Software Engineering from a reputable university, with a strong focus on computer programming, software development methodologies, and algorithm analysis. Completed a range of core courses such as Data Structures, Operating Systems, and Software Architecture, providing a solid foundation in software engineering principles.

- Completed an internship at a tech company, where I applied classroom knowledge to real-world software development projects. Participated in code reviews, debugging sessions, and software testing under the guidance of experienced engineers, honing problem-solving and critical thinking abilities.
